REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

1. The rejection of Claims 34-38 under 35 U.S.C. 112, first paragraph, for lack of enablement regarding synergism between VNP40101M with cytarabine and fludarabine in dosages other than those recited in Table 2 (page 13) and Table 3 (page 14) of the specification, has been overcome in view of the amendments to instant claim 34 (see Amendment of 03/03/2009). Claim 34 has been amended in accordance with the instant specification.

2. The prior art of record, Lee et al teaches the use of 1, 2-bis (methylsulfonyl)-1-(2-chloroethyl)-2-(methylaminocarbonyl) hydrazine (also abbreviated as VNP40101M) as an antitumor agent for solid tumors and leukemia. Gourdeau et al teach the use of cytosine analogs and cytarabine for the treatment of leukemia and chronic myelogenous leukemias. Neither of them teach, suggest nor render obvious the synergistic combination of VNP40101M and cytarabine or fludarabine and the method of treatment of tumors using the combination of the two active agents as instantly claimed.

3. The prior art of record, Lin et al (US 6,855,695) teaches the use of N-benzyl substituted derivatives of VNP40101M (see col. 27) for the treatment of tumors and cancers. Even though Lin states that his compounds may be administered in combination with other antitumor agents, one of which is cytarabine (AraC) and they may act synergistically, his teaching still does not suggest or render obvious the instant synergistic compositions and its use in the said method of treatment, especially given the fairly large genus of other agents that could be used in combination with VNP40101M and also the statement by Lin that synergism is unexpected.

4. The rejection of Claims 34-48 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 70-73 of U.S. Patent No. 6,855,695 ('695) has also been overcome for reasons stated above.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Any inquiry concerning this communication should be directed to Shaojia A. Jiang, Supervisory Patent Examiner in Art Unit 1623 at 571-272-0627.
